Origami

Origami is a collection of removable baskets designed for functional elegance and everyday versatility. Each piece is defined by a discreet system of clips placed at the base and sides, allowing the basket to be easily fastened, opened, or flattened. Crafted from innovative textile cork, the design unites natural texture with technical precision.

When assembled, the baskets reveal a carefully balanced volume that is sculptural yet soft in expression. When folded, they reduce to a minimal form that optimizes storage space and simplifies cleaning and maintenance. Thoughtful, adaptable, and quietly refined, Origami transforms practical needs into an elegant design gesture.

Cinde Buffet

Cinde Buffet is a range of baskets that convey character. The nobility of the skin manages to create distinguished and elegant pieces. The collection offers several options in terms of shapes, sizes and colours, that allow it to adapt to different uses or locations to produce stunning presentations.

The exterior of each element reveals a delicate stitching around the contour and elegant cross stitch as a union. Without forgetting operational matters, the bases are removable to facilitate a quick and easy cleaning.

Kaizen

This sophisticated buffet collection is a tribute to minimalistic elegance, drawing inspiration from traditional Japanese aesthetics. The set features items in three distinct heights, allowing for a visually interesting staggered display. Crafted in rich oak and deep chocolate tones, each piece is circular, exuding a serene and harmonious feel characteristic of

Japanese design. The dual colour palette not only adds depth and contrast but also enhances the natural beauty of the materials. Ideal for elegant dining settings, this collection merges functionality with artistic finesse, providing a timeless addition to any buffet arrangement.

Cork

Introducing the Cork Collection, an embodiment of Mediterranean elegance with a sustainable touch. This buffet collection features items primarily constructed from cork and solid oak, offered in natural and rich chocolate colors. The use of cork not only lends a unique texture and eco-friendly appeal but also infuses each piece with warmth and organic beauty. The tallest item in the collection, crafted entirely from cork, stands out as a testament to innovative design and natural aesthetics. The smallest piece is a single beauty. Each piece in the collection is designed to offer both functional and decorative value, making it a perfect addition to any setting that values sustainability without compromising on style. Combine it with Odonata collection.

Odonata

The Odonata Buffet Collection epitomizes Mediterranean charm and ecological consciousness, crafted from a blend of natural wooden boards and uniquely designed cork elevations. This collection is a celebration of sustainable luxury, with each piece showcasing the rich, organic textures of wood and cork. The elegant designs are simple yet sophisticated, reflecting a commitment to eco-friendly materials without compromising on style. The neutral tones of the wood complement the textured cork, creating a harmonious look that is both inviting and stylish. Ideal for environments that appreciate natural beauty and sustainable choices, this collection brings a serene, earthy elegance to any dining or social gathering space.

Organics

Organics curves wiggle to give life to the unique pieces. Natural shapes bounded by lines full of expression and movement. A design based on the strength of sensitivity and harmony. Pieces that distill a fragile soul due to the smoothness of surrounding curves, but robust and strong essence thanks to a perfect anchorage design.

Organics is the perfect setting for all types of presentations as it is able to create an atmosphere both independently and joining other elements working as a working as a team. These pieces are made of solid oak with an oil-based finish suitable for food use.

Clochan

The Clochan collection allows you to create different compositions due to the versatility of each of its parts and their modular system using hexagons. A multifunctional design with boxes which used individually convert into containers and trays. Clochan hexagons are pieces that fit together to

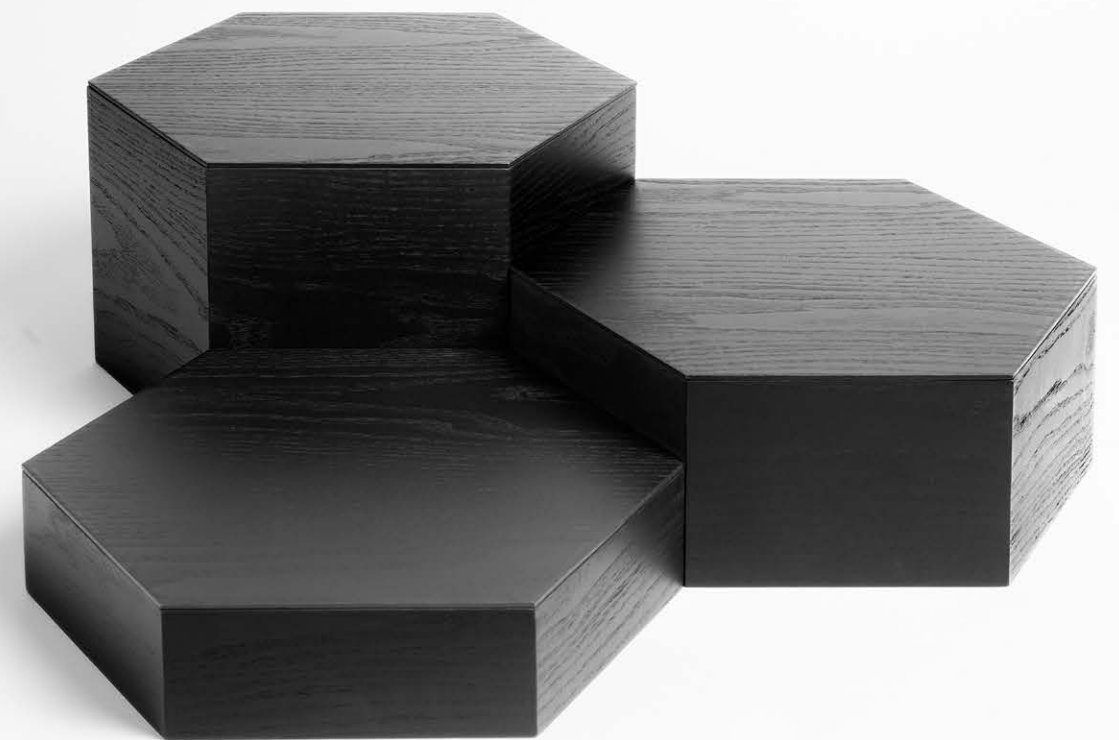

construct or deconstruct spaces at different levels through its heights, containers and trays. Clochan is made of ash plywood with matte water-based lacquer finish (food grade), leaving the natural wood grains. It is available in black and white version as well as the latest trend “pastel colours”.

Fez

Fez stands out for its simplicity and high performance. A collection inspired by the high magic of Andalusian style. This collection offers an original way to arrange food. By three containers in different sizes and tailored to their respective bases on a shape tripod, suggestive organic compositions are generated. The trays are made of three millimeters

aluminium suitable for oven thanks to its long-lasting non-stick Eterna® Whitford finish, free of PFOA. The material and coating used allow displaying food directly from any heat source. Tripods have silicone terminals that prevent knocks and support high temperatures.

Ice

The Ice collection is the Nokte’s solution to serve and keep cold food as an alternative to the stainless steel trays. All pieces are made entirely of Corian, a material that enhances the product displayed by its purity and hygiene. A sophisticated design based on geometric lines. Thanks to

its simplicity, Ice allows a compositional freedom on table and buffet. The boxes have a cover that slides over the structure where coolers are placed. Once closed, all joints are concealed with great precision.

SKL Floor

SKL Floor is a mobile shelving system designed for versatile use in buffets, offices, and spas. The metal frame moves easily on discreet wheels and features four shelves that can be positioned flat or at an angle. A simple anchoring system allows this adjustment without the need for screws, making it easy to adapt to different needs. Shelves can also

be removed completely if desired, offering even greater flexibility. The SKL Floor system can be extended by adding a bridge shelf that connects two units. One of the defining elements of its design is its compatibility with SKL Boxes, which offer endless combinations and allow the configuration to adapt naturally to the size and purpose of each shelf.

SKL Revolution

SKL grows, reinvents itself and evolves as SKL Revolution. The original SKL collection, gains height and extension thanks to new metal structures. A modular system that offers the possibility to obtain different assembly options, adapting to the aesthetic or operational premises of each establishment. In addition, SKL Revolution allows 360° assemblies for the

exhibition of the product on two sides. An elegant, simple and symmetrical design that transmits composition and order. The series is completed with SKL GN 1/1 and GN 2/2 trays in heights of 6,5 cm and 4 cm, available in oak, black and white. All the elements are optional so the combinations are innumerable.

SKL REVOLUTION S Unit Superior REV994, S Unit Inferior REV993. Colour: Black.
Tray (x2) REV995, Tray SKY325, (x2) SKY109, (x2) SKY115. Colour: Oak.

A modular presentation system composed of different elements to configure an impressive Skyline and to be able to stop later to enjoy the views. Large compositions can be generated from easily assembled and manipulated modules. Stacked to generate height or joined to give extension. The height can be topped with the round base with tube, a piece of high visual impact that can work as a stand or as a support for our Navona bowls.

Collection includes anchor elements to join modules and create extension. It provides resistance not only to hold the structure together but also for security reasons.

The high added value of Revolution is that the same collection allows both 360° or frontal assemblies depending on the location. Depending on the space for the presentation (islands, central tables, etc.) it allows the client to always have a correct visualization and 360° access to food, so the back of the assembly is never visible.

SKL

A modular display system composed of different elements to build a stunning SKL and then stop to admire the view. Upper and lower parts to increase or decrease the size and a visual perception of each composition. Trays that can be arranged at different levels or tilted, baskets that also serve as pedestals, benches as bridges and even a two-story structure with corresponding trays that stands as the skyscrapers of the

collection. SKL is available in two shades: night & day. During the day an oiled solid oak and at night, look in black with ash plywood. Just choose when it’s day or night... a little bit of magic for unique presentations. It’s important to highlight that all parts of SKL are suitable for food use. The version in natural oak is oiled, black and white ash plywood version is finished with matte water based lacquer.

Bonsai

Bonsai pieces are made of high quality wood where surfaces render to the natural textures of materials. A tray that fits into the spaces thanks to a simple and elegant design that stands out for things that are not seen. One of the main features of this collection are invisible handles that don't distort the concept of space and are very comfortable and functional for transport. The range consists of different measures to

cover different functions under the same aesthetic line. For room service: welcome tray, room service tray and a tray for welcome amenities. Bonsai is available in two versions. Made with solid oak with food grade oil finish and with ash plywood finished with matte water-based lacquer in black. A warm and elegant collection inspired by the art and designed down to the smallest details.

BONSAI PLACEMATS

Customizable touch with a variety of placemats to suit any aesthetic preference. The Bonsai trays come with the option to choose between cork and regenerated leather placemats, each available in an array of refined colours.

The cork placemats, with their natural texture and durability, add a touch of organic warmth to any setting. Perfect for those who appreciate the beauty of natural materials, the cork options bring an earthy elegance that complements the wooden frame of the trays.

For a more luxurious feel, the regenerated leather placemats offer a sleek and polished look. Available in rich and deep hues, these placemats add a sophisticated contrast to the wooden trays, creating a stunning visual appeal that enhances the overall ambiance of any room.

Shoe Shine Bag, Laundry Service Bag	Room	Leather / White

The Bag

The Bag, a sophisticated and practical addition to upscale hotel amenities, designed to enhance the guest experience with convenience and elegance. This product combines a detachable cotton bag with a stylish regenerated leather hanger, offering a seamless solution for ordering laundry or shoe shine services. Placed conveniently in the hotel closet, The Bag allows guests to easily request housekeeping services. The durable cotton bag, designed to hold clothes

or shoes, can be effortlessly detached from its hanger and left for the housekeeping staff. Once the items are cleaned and meticulously attended to, the staff returns them to the room and reattaching the bag to its hanger in the closet. Crafted with high-quality materials, the hanger can be customized with the hotel's logo, reinforcing brand identity and adding a personalized touch.

Ontake

Ontake is a handcrafted plate inspired by Asian aesthetics, designed to elevate the art of presentation. Made through fusing glass-forming techniques, each piece reveals subtle variations and a distinct expressive texture. Available in matte or glossy black, the surface is decorated with red

glass flakes that create a striking visual contrast while enhancing the plating experience. A gentle concavity at the center allows for dressings or the placement of a small bowl, adding both function and refinement to the composition.

Isera

Isera redefines the art of keeping dishes cool with remarkable subtlety. Crafted from blown glass, its surface shimmers with iridescent tones reminiscent of seashells. The satin, translucent finish lends the collection an ethereal and refreshing presence. Isera includes two bowls and two aluminium draining grids that allow for two distinct compositions. The first pairs the larger bowl with a fully

perforated grid, ideal for serving seafood. The second configuration is designed to maintain the temperature of chilled dishes such as salads, tartars, or cold soups. In this arrangement, the larger bowl holds ice beneath the central-perforated grid, supporting a smaller bowl where the dish is presented — elegant, functional, and effortlessly refined.
